ADDENDUM A

Occasionally, customers have a need to move our SOFTWARE licenses to new HARDWARE, either due to HARDWARE failure or simply as a HARDWARE upgrade. DATAWORKS PLUS considers application upgrades as a part of our standard maintenance plan. However, system moves are not covered under the plan. Customer should contact DATAWORKS PLUS for pricing for system moves. Customers who need to move SOFTWARE/databases to new HARDWARE will need to do the following:

1. Contact DATAWORKS PLUS at **866.632.2780** for pricing and scheduling;

 3. Provide VPN access to the new system and the old system simultaneously until the move is complete;
 4. Provide access to system backups and logs.
 5. DATAWORKS PLUS understands that some Agencies prefer to handle application license moves to customer owned HARDWARE without DATAWORKS PLUS assistance. In this instance, it is the Agencies responsibility to notify DATAWORKS PLUS so that maintenance coverage will continue for the license(s). The following information should be given to DATAWORKS PLUS to update license information on the maintenance record:
 - Previous machine name and IP
 - New machine name and IP
- DATAWORKS PLUS is not responsible for providing on-site assistance in the event of customer provided hardware failure.

ADDENDUM B – DECLINE OF MAINTENANCE

The following information is included in the event that your agency declines maintenance with DATAWORKS PLUS:

Should you need assistance going forward, please note the Time and Materials process below:

- If the problem can be resolved during the two-hour minimum time-frame listed in the purchase order, we will proceed with the repair. DATAWORKS PLUS support technicians will contact your Agency before going above the time limit issued by your Agency.
- If the problem requires HARDWARE to resolve, DATAWORKS PLUS will issue your Agency a quote for the HARDWARE separately, provided the HARDWARE is not listed as obsolete by DATAWORKS PLUS. T&M agencies are responsible for shipping costs for the replacement HARDWARE. Be advised that significant downtime could result if hardware repairs are warranted.

WHEREAS, GameDay Athletic Surfaces (“GameDay”) is a known company providing these natural turf and athletic complex construction, renovation, and maintenance for a host of municipal athletic complexes and school systems in and throughout this area and the state; and

WHEREAS, GameDay has provided a quote for the required services in order to make the playing field ready for play of the City’s youth recreational league upcoming season (a copy of the quote is attached as Exhibit “A”); and

WHEREAS, because the quote and projected work is below the \$100,000.00 threshold for a public work that would require the issuance of a public bid pursuant to Act 2023-497, the City Council may approve the expenditure of the funds pursuant to the attached quote; and

Tarrant Youth Football Field
Fraize mow and top grade quote

- Fraize mow of entire field
- 200 tons of whitewashed top-dressing sand
- Solid tine of entire field
- Laser Top Grade of entire field
- Agronomic program consisting of 3 applications (foliar and granular) for reestablishment of playing field.

Fraize mowing is a great option to remove unwanted organic material and the thatch build-up layer, while leaving behind enough rhizomes and stolons to allow the fields to grow back in. Fraize mowing will also help eliminate any high spots on the field. Laser top grading is a great option to correct surface inconsistencies within a 2" threshold. Fields will also see the benefit of incorporating coarse sand into existing rootzone/native soil. Solid tine aerification will take place first to allow sand to be moved into the rootzone. Then the quoted amount of sand will be applied, and laser graded as described, once grade work is complete the field will need to remain closed for 6-8 weeks to allow proper establishment. This means all activities including mowing. Game Day will reestablish the playing surface. This process will give you an almost brand-new field.

-All labor, material, mobilization and overhead costs.

Total: \$26,385

*If Spoil haul off is required another charge of \$3,200 will be incurred

Notes:

- *All irrigation heads and valves will need to be clearly marked by customer prior to beginning.

- *This proposal does not include unforeseen conditions, unsuitable soils hazardous materials and/or waste, utility relocation, electrical work, testing, or erosion control.
